A LOOK BACK

(...OR WHY THE FIELD OF INFORMATION
SECURITY IS EVOLVING FASTER THAN EVER)

From Mrs Grace Kamara
Abidjan- Cote D'Ivoire
Phone 00(225) 0748 4681

My Dear ,

With due respect and humility I write you this proposal which I believe would be of great interest to you.

I am Mrs Grace Kamara, a Sierra Leone National and the wife of Late Dr LAMNE Kamara of the blessed memory. Prior to my husband assassination by the rebel forces loyal to FODAY SANKOH , he was the Director General National Gold Diamond Mining Corporation of Sierra Leone. Two days before my husband was assassinated, he instructed me and my two sons TONY and FRANK to move out of Sierra Leone immediately. Before the powerful Economic Community of West African States (ECOMDG) forces intervened which eventually resulted into a brutal civil war. I and my children managed to escape to Abidjan, the Republic of Cote d'Ivoire through the help of my husband's friend who is a trawler. We came into Abidjan with some valuables including a cash sum of US\$ 18 Milion (EIGHTEEN MILLION UNITED STATES DOLLARS ONLY) in two trunk boxes which I deposited with a private security company here in Abidjan - Cote d'Ivoire in my son's name (TONY Kamara). For your information, we did not disclose the real content of the boxes to the security company and we do not wish them to know this under any circumstances. Rather, we deposited the boxes as containing family valuables.

Meanwhile, I want to leave Cote d'Ivoire entirely with this money for investment in your country because of the stable political situation and mostly for the future of my children. Right now I am seeking for a foreign partner who will assist me retrieve and serve as the guardian of this fund with whom I can plan the best way to move out this fund for investment purposes which is my motive for contacting you.

Moreover, you are requested to assist in the following areas:

1. That you will be required to negotiate on how best to transfer this fund without attracting much taxation.
2. That you will assist in providing me and my family a permanent residence / Resident permit in your country after this money has been transferred to your country.
3. That you will be responsible in advising us to invest this fund a viable venture in your country.
4. That you will pay a short working visit (2 days) to meet with me and my family face to face here in Abidjan- Cote d'Ivoire to enable us establish a personal contact with you to ensure some amount of confidence between us. We have it in mind to reward you handsomely for your assistance.

We are prepared to give you 10 % of the total sum, and 25% share in the total investment to be made. Do not hesitate to call my son TONY on his line 00

Executive Order -- Improving Critical Infrastructure Cybersecurity

EXECUTIVE ORDER

IMPROVING CRITICAL INFRASTRUCTURE CYBERSECURITY

By the authority vested in me as President by the Constitution and the laws of the United States, I hereby ordered as follows:

Section 1. Policy. Repeated cyber intrusions into critical infrastructure demonstrate the need for improved cybersecurity. The cyber threat to critical infrastructure continues to grow and represents one of the most serious national security challenges we must confront. The national and economic security of the United States depends on the reliable functioning of the Nation's critical infrastructure in the face of such threats. It is the policy of the United States to enhance the security and resilience of the Nation's critical infrastructure and to create an environment that encourages efficiency, innovation, and economic prosperity while promoting business confidentiality, privacy, and civil liberties. We can achieve these goals through a partnership between the Nation's owners and operators of critical infrastructure to improve cybersecurity information sharing and to develop and implement risk-based standards.

Obama, China's Xi discuss cyber security dispute in phone call
